ÓBLON, SPIVAK, et al Docket No.: 247569US-8 DIV INV.: Seng Beng HO SHEET 31 of 63

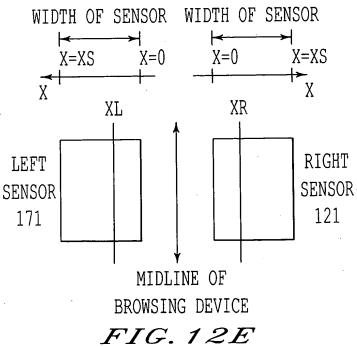

If one or more than one page is current flipping form left to right, reverse the direction of the left-most page moving in that direction if it is time to do so, or else launch one new page from right to left if it is time to do so. Whether it is time to carry out one of the above actions depends on the current flipping SPEED setting. The higher the speed setting, the sooner the reverse of direction of the page involved since the previous direction reversal of a page or the sooner the launch of a new page since the launch of a previous page.
